

# We stopped them again! And again!! And again!!!

Because some elected officials never stop targeting businesses, we don't stop either. Their drive to target PA companies with higher taxes this year would have touched every industry across the Commonwealth.

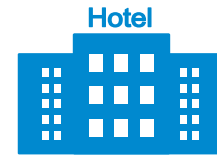

## This year's proposed tax increases include:

**Severance Tax on the  
Natural Gas Industry**  
**\$293.8 million**

**Commercial  
Storage Tax**  
**\$153.6 million**

**Hotel Tax**  
**\$96 million**

**Increased Utility Taxes on  
Natural Gas, Electricity  
and Phone Bills**  
**\$405.8 million**

**Insurance Tax**  
**\$141.5 million**

**Technology Tax**  
**\$330.3 million**

**Total savings to business: More than \$1 Billion**

The Pennsylvania Chamber is proud to stand up for Pennsylvania businesses and families in successfully opposing these proposed new and higher taxes that would have increased operating costs for businesses throughout the Commonwealth!

**Join the PA Chamber's fight against higher taxes on job creators!**
